

## Naruto

Is about Naruto a Leave Ninja who has a mystical beast sealed inside him.

Has lots of action scenes (shonen) and has a lot of character development but is also pretty long (over 900 episodes).

**Death Note**  
 Deathnote is about a Guy who finds a Deathnote, a book where the person who you write down dies.  
 A very intelligent Anime with lots of Twists and "if he's thinking what i am thinking then i think i do this" moments.

**Hellsing**  
 Hellsing is about Alucard(Dracula backwards) a brutal, strong Vampire whos decimating Zombies and Holy Priests alike.  
 Good for People who like Violence, Gore and generally a darker tone.

In this Minibook I will write about my favourite Anime's, what i like about them and to whom i would recommend them.
