

My favourite place

Arian Dullaj

My favourite place is the ice hockey rink.It can be anywhere as long I can skate on it.

The sice depends on the Quality of the Club but the ice rink where I usually go is around 200m x 150m

The first ever Ice hocey rink was build 1881. But the rink where I go skate was build 100 years later: 1981.

You can get there how ever you want, its not far and its not a hard to get there.

I go there nearly every day, even when its not open I go train my

shooting and skills off the ice and even in the summer I go there every day.

www.minibooks.ch

The first time I ever went was 2011 when I was 2 years old. Since then I never missed a day without playing Ice hockey, no matter where I was.

I love going to the Ice Hockey rink, its like my 2nd home, nio matter were I am on the world

Standing on the Ice feels like all of my problems just deappear. The ice hockey rink is my favourite place because I feel free on the ice, without any taughts, without any problem, just ice hockey.
